We chat to music Producer, Thaso a.k.a Thasman who lets us in on what it takes to be a music producer.

Our movie preview this week in “Fun With Dick & Jane”, starring Jim Carrey and Téa Leoni. Dick and Jane are in love and living the American dream - until one day it becomes an American nightmare. When the company Dick works for becomes involved in an Enron-like scandal and he takes the rap, Dick and Jane are faced with the prospect of losing everything. After playing by the rules and getting burned, Dick has an idea: If stealing was good enough for his boss, then it's good enough for him.

We play out with Tuks with his song 'Pressure Point'.

**TX: Next Week - Sunday 05 January @ 1.30pm**

We get deep with Poets Rudeboy Paul & Ntsiki Mazwai who will enlighten us about the growing trend of this performance art and their poetry.

We check out the latest gadgets in our monthly gadget review...

Our movie preview is the remake based on the classic Jane Austen novel "Pride & Prejudice". The classic tale of love and values unfolds in the class-conscious England of the late 18th century. Keira Knightly is the feisty and independent Elizabeth Bennet who falls for the dark and broody Matthew MacFadyen as Mr. Darcy.

We play out with Eminem's 'When I'm gone'.
