e Press Release: 3rd Degree – Winners

TX: Tuesday 29 June at 9.30PM

South Africa's hopes for World Cup glory came tumbling down –even after a 2-1 win over highly-rated France. It was just not enough to make it through to the next round.

Yet despite this, South Africa still remains a champion nation, the first African country to host a FIFA World Cup. As our stadiums and fan parks are beamed across the world, the eyes of the world are literally upon us. And we look efficient, safe and very welcoming.

We are winners all the way.

This week 3rd Degree looks at the many ways in which we've succeeded as host nation beyond our wildest dreams. United as never before, we have claimed our place in history.
