### **3rd Degree - “Jumping The Queue”**

**TX: Tuesday 10 November at 9.30PM**

3rd Degree uncovered an RDP housing scam where dodgy operators exploit the desperation of the poor for their own gain. After months of intense investigation with hidden cameras, the team managed to identify the crook, Bafana Ntuli. He offered to supply an RDP house for R6000, promising to hand over the keys and title deeds within weeks.

Since then, an investigation has revealed a network of recruits – people Bafana lured with promises of payment to help him swindle money from pensioners. Many of them were not aware that it was a scam, believing they were doing legitimate work.

The whistleblower who leaked the information to 3<sup>rd</sup> Degree stepped forward and laid charges. But nothing was done, despite the fact that all information from the investigation was handed to the Department of Human Settlement. Bafana Ntuli still roams the streets, a free man.

3rd Degree demands answers from the authorities.
