e Press Release: 3rd Degree – Stalking

TX: Tuesday 13 April at 9.30PM

She was beautiful, kind and an award-winning journalist.

Friday 23 October 2009 was to be a big day for Shadi Rapiroso, one of 3rd Degree's producers. This was to be the day she would wrap up her first big investigation for e.tv's flagship current affairs programme.

But a day that began with such promise, ended in horror and pain. Shadi was brutally murdered by a neighbour who had been stalking her for months, a man whom she had repeatedly told to leave her alone.

When he finally realised he would never get her, he slit her throat. If he couldn't have her, no one would.

3rd Degree investigates stalking and its terrible consequences.
