e Press Release: 3rd Degree – Ways of Staying

TX: Tuesday 14 July at 9.30PM

Despite the violence, crime and corruption, foreigners still choose to put down roots in South Africa. And many skilled locals stay on, rather than going in search of greener pastures abroad.

Why? What is it about our country that lures people here? And what makes it so difficult to pack up and leave?

This Tuesday, 3rd Degree talks to author Kevin Bloom about his book “Ways of Staying”, which takes a hard look at life in South Africa and how individuals cope.

3rd Degree also meets an American businessman who fell in love with a South African woman - and all the possibilities of our country. And a mother whose son was brutally slain, speaks about why she still believes in this country and its future.

You've chosen to stay and live in South Africa. Watch 3rd Degree to find out why that is the best possible decision.
