## **e Press Release: 3rd Degree – The Tricky Issue Of Race: Part 1**

**TX: Tuesday 25 May at 9.30PM**

Read the letters pages in the papers, tune in to the chat shows on radio. South Africans are consumed by the issue of race.

Sixteen years into democracy, race is still the fault line in our politics, the default position in many arguments.

In a two-part series, 3<sup>rd</sup> Degree looks at this thorny, heated issue.

This Tuesday the focus is on white South Africans. To what extent are they stuck in a racist past... or is it only the extremists who can't move forward?

And most importantly, what will it take to unite South Africans around a common goal, rather than divide them along racial lines?
