3rd Degree: Siphon Dube **Tuesday 3 October 2006**

He is one of the worst criminals of our time. A paedophile, serial killer and rapist. For nearly three years **Siphon Dube** preyed on the young and innocent, molesting little boys and raping young girls. He also brutally murdered six children living in Johannesburg.

Last month Dube was sentenced to life in prison. But this comes too late for thirteen of his tiny victims. Police now admit they could have stopped his reign of terror sooner. But incompetence and shoddy investigative work **gave him the freedom** to continue his murderous spree.

This week **3rd Degree** speaks to the families of Dube's victims. And looks at some of the most obvious leads police failed to follow giving Dube more time to rape and kill.

3rd Degree investigates Tuesday, 3 October @ 8pm, only on e.
