

PRESS RELEASE

e Press Release: 3rd Degree – Broken Promises

TX: Tuesday 21 September 2010 at 9.30PM

Nursing is a popular career choice among young women in South Africa but there are just not enough nursing colleges. Desperate to study, many young people fall prey to unscrupulous operators who prey on their hopes and dreams, offering illegal courses at more than R10 000 a pop.

We uncovered one such racket in Cape Town. The scamster – whose name we will reveal - has been running nursing courses for years. But her school is not registered with the South African Nursing Council, so the qualifications are not worth the paper they're written on

3rd Degree exposes her racket and tracks her down.

We also speak to several young women whose dreams have been shattered. They handed over money and got nothing in return.

Watch 3rd Degree this Tuesday, 21 September at 9:30PM.
