e Press Release: 3rd Degree - Ring of Fire

TX: Tuesday 12 July at 9.30PM

With tensions running high over lack of service delivery, protest marches are becoming increasingly violent in townships around Gauteng.

Just last week South Africa reeled in shock when a group of angry protestors in Chiawelo, Soweto, set alight two local councilors' houses - one of them with the family still in it.

The poor have had enough of governments empty promises. They are taking their anger and frustration to the streets, creating a ticking time bomb.

This week 3rd Degree investigates what is behind this anger and igniting 'The Ring of Fire'.
