

## Press Release

### **This Week On 3<sup>rd</sup> Degree : Tuesday 6 December @ 8pm**

Set in tranquil surroundings, Knysna has long been the playground of the rich and famous. A town where families go to escape the chaotic outside world unspoiled and untouched by the ugliness of the big cities.

But this perfect picture is merely a façade. Within this small town, a predator hunts.

His first victim, 18-year-old Jessica Wheeler, was found in a graveyard. She had been sodomized and suffocated.

A month later, 20-year old Victoria Stadler's body was found in the bushes, she had met a similar fate.

Days later a third victim, this time a man, Peter Mc Helm was found strangled.

A local DJ linked with all three victims was questioned by detectives, but he was released without being charged and has left town. As the town prepares for its annual influx of tourists, many are asking who will be next.

This week 3<sup>rd</sup> Degree investigates. **3<sup>rd</sup> Degree, Tuesday 6 December @ 8pm, only on e!**
