**Forgive&Forget : Mom at 15**

**TX: Tuesday 31 March at 9pm**

Teenage pregnancy is a common issue in most communities. Dreams of education and success are shattered for both teen moms and their parents. Thuli is one young lady who has acutely felt the effects of her actions.

At the tender age of fourteen, Thuli rebelled against her mother and chose to move in with her much older boyfriend. Thuli soon fell pregnant and her relationship with her mother deteriorated rapidly.

Thuli and her mother have not spoken in four years. She now realises the extent of the damage she caused to their relationship and would like to apologise.

Can mother and daughter heal each other's emotional wounds? Find out this Tuesday at 9pm.
