## **Fresh Living TV – Childproofing**

**TX: Monday 15 November at 5.30PM**

---

**Childproofing a home is not child's play as many people would like to believe. So what to do when you have a curious toddler running amok in your home? Call the Fresh Living dream-team, of course. Catch them in action this Monday, 15 November at 5.30PM.**

Parents are often concerned about protecting their little ones from violence outside their homes, yet many adults forget that danger also lurks in and around the home. Some experts say children, especially those between the ages of 1 and 4 are more likely to be seriously hurt by burns, choking, drowning, poisoning, or falls than by violence outside the home.

Before a child can crawl and walk, measures should be put in place to childproof a house. Next week host Ayanda Tini, her team of experts and her Fresh Living crew are in Johannesburg on a mission to help a family with their house of little horrors.

Stay tuned to e.tv to find out how the team of Fresh Living TV experts help to childproof a home.
