

PRESS RELEASE

Great Expectations

TX: Monday – Wednesday 11:30 – 12:30pm

19 May 2008 – 21 May 2008

Baby talk

Monday on the 19 May 2008 at 11.30 – 12.30pm

When your baby starts cooing at a young age, are they on their road to talking? When you as a parent model correct language skills, babies gradually learn proper grammar. When do babies start talking and how can I help my baby develop speech? This Monday on Great Expectations, Sam and guests discuss how to encourage babies to start talking.

Infant and child obesity

Tuesday on the 20 May 2008 at 11.30- 12.30pm

Obesity is one of the most common nutritional problems in the world. Obesity occurs in babies and infants as they take in more calories than their body can use. Doctors can check infants weight according to the standard growth chart. Sam focuses on infant and child obesity as well as symptoms of bad eating habits.

Birthdays and Planet Parent

Wednesday on the 21 May 2008 at 11.30 – 12.30pm

Birth Days explores the emotional, medical, economic and social aspects of parenting. Planet Parent focuses on the human drama of raising children and shares in the concerns and frustrations that most parents are feeling, it also examines the pros and cons of various theories on how to handle a child, but most importantly listens to the real experts, the parents. They share their techniques and give us their theories on what works best for them.
