

PRESS RELEASE

INSIDE OUT - NICRO

TX: Saturday 12 December 2009 at 9:30AM

South Africa is ranked among the top ten countries in the world... often for all the wrong reasons.

We hold the number four spot for most robberies per capita, the number two spot for most murders and are ranked number one for highest rape rate, with more than a hundred of the latter occurring per day!

In addition,, South African prisons are overflowing and tax payers are annoyed by the costs of keeping perpetrators at bay.

Inside Out examines the root causes of crime and the possibility of alternative punishments for small time offenders with NICRO (National Institute of Crime Prevention and the Reintegration of Offenders).
