

Press Release

Let's Fix It **Tuesday 12 September at 8.30pm**

This Tuesday Let's Fix It visits two ladies who have both lost their parents. Let's Fix It tries to make their cheerless present better than their past.

The first lady, Zinhle Nhlantoti, had a severely traumatized childhood. Let's Fix It throws a once-in-a-life-time celebration party in Johannesburg. Hoping to heal some of the wounds of her childhood, they help her with a difficult and important life decision regarding her future career.

Then they travel to Mafikeng to meet Velia Green and where they help her enjoy a delightful experience with her husband and family at a stunning getaway venue. And, while they were away, the team sneaked into Velia's home and gave it a complete makeover – new curtains, new beds and bedding, new appliances and loads of groceries! It was a big fix that raised big smiles and lots of tears of joy.
