Let's Fix It **Tuesday 15 June at 8.30pm**

In this episode Let's Fix It is in Cape Town, where they meet up with Rukeya Brenner of Westlake, who operates a crèche from her home. Not only is she providing an essential service to working moms, but she is also a first-rate teacher.

Being a woman who has such a great love for children and who runs a tight operation on a shoestring, the team decided to fix her life. They swooped in and gave this caring woman a much better environment in which to teach her kids. Armed with paint, everyday-supplies and bags of goodies, Rukeya's world was filled with colour and joy.

While in Cape Town, they also paid Pastor Moses and Reverend Neethling a visit at their church, the Revival Life Changing Ministry in Mitchells Plain. Here they fill their lives with even more warmth and music than the congregation already has. They deliver them the most beautiful polished brass band instruments, more food for their soup kitchen, and the recording deal of a lifetime for their singing group. So let the saints go marching in...

At the end of each programme, viewers should stay tuned for the end credits, when host Samm Marshall will reveal who is this week's winner of the quick fix.
