

Press Release

Let's Fix It **Tuesday 19 September at 8.30pm**

The Hodgeson family in Johannesburg is blessed with skills and creativity. However, despite all their combined talents, they don't have an outlet to fulfill their potential. First of all, they need equipment and supplies to allow them to start a baking business.

Then their daughter, Angela, 13, dreams of joining the National School of Arts. But first, she needs to get her foot in the door, a scholarship and transport to the school, if she is successful.

In addition, Let's Fix It throws in some stylish new furniture while they were out of their home. In short, it seems that the Hodgeson family is on its way to great things.
