

Press Release

Let's Fix It **Tuesday 20 June at 8.30pm**

Let's Fix It travels to KZN, where we meet Tarryn Hogg, who lives in Wentworth in Durban. Living with cerebral palsy, she exists in a world where her true brilliance can't find expression. While Tarryn was at school, the team sneaked in and installed a brand new computer with all the right software, just perfect for specific needs.

It's difficult enough raising one child, so imagine raising 14. That's exactly what Colin and Pam Boake, parents to abandoned and abused babies of all ages and races do everyday in Pietermaritzburg. They foster children from birth to high school, and each one is treated as an individual and loved unconditionally.

Let's Fix It thought that Pam and Colin needed a break, filled with pleasure, rest and relaxation. Watch the shock when they practically kidnap the couple from their home and whisk them off to a secret location of pure bliss – The Health Spa at Durban's Hilton Hotel, for a day of pampering.

Viewers should stay tuned-in for the end credits where Samm Marshall reveals who is this week's winner of the quick fix.
