

Press Release

Let's Fix It **Tuesday 26 September at 8.30pm**

Balancing the challenges and demands of everyday South Africa is one thing. But for those who live on the breadline, it is quite another. Add to that the extra burden of an alcoholic family member and it is a nightmare.

With Samm Marshall to the rescue they meet up with the Kanetsi family and put their mother into a rehabilitation facility. And so the healing begins. As this marked the beginning of a revolution and real turning point in the family's history, it was appropriate to celebrate the moment.

In true Let's Fix It style Samm arranges tons of gifts and trips to exciting places. Add one day at the zoo and a home facelift. The family came back to a new place of warmth and comfort and the consolation that in next to no time mom will be a brand new human being and family life can continue as it should be.

It was a fix on the fast track and one full of emotion.
