

## **Press Release**

### **Let's Fix It** **Tuesday 6 June at 8.30pm**

In episode one, Let's Fix It heads off to Delmas in Mpumalanga, where Sann Marshall and the Let's Fix It crew meet up with Madelaine, who lives in poverty and is the foster mum of a pair of two children. Although she has had a hard life, she is a smart and determined woman.

Sann decides to set her up with the fix of a lifetime – the start up of a home industry making traditional chutney, helping her bottle it and distribute it to local retailers to market the delicious new product for her.

Many people rally to support her, so Madelaine starts to generate her own income. After Sann leaves, Madelaine's life changes for the better.
