

Press Release

October Monday Memorable Movies **After 10pm**

Every Monday night, e.tv brings you a Monday Memorable Movie slot. Cult movies with enduring quality, star performances and extraordinary story lines.

Says Deva Britow, e.tv's Head of International Acquisitions: "As the second biggest channel in the country, e.tv is known for its action movies, wrestling and local programming – all of which perform very well for us.

"However, we also believe that we should try to cater for as many tastes as possible and offer our viewers the opportunity to watch some of the greatest films ever made. The Monday Memorable Movie slot was created with the discerning viewer in mind and has proven to be very popular thus far."

This October viewers can expect classic-classics such as the 1975 production of *The Stepford Wives*, cult favourites like *Paper Moon*, and some of cinema's finest moments in *Ordinary People*, *Das Boot* and *Chariots of Fire*.

In *Paper Moon*, Tatum O'Neal became the youngest woman to ever win the Oscar. A youthful Timothy Hutton won the Academy Award for Best Supporting Actor in *Ordinary People*, a movie which won four Oscars.

Das Boot was nominated for six Oscars and Chariots of Fire won four Oscars. Incidentally, in Chariots of Fire you can also see the mostly underrated South African actress, Alice Krige.
