### **ePress Release: Playa**

**TX: Wednesday 17 February at 9.30PM**

South Africa's premium soccer-lifestyle show is taking the game from the field, to the club, to right into your living room.

Playa chats to Bafana striker, Richard Henrykane, about his rise to football stardom.

With the world Cup just months away, locals and international visitors are scrambling for the best accommodation as they follow their teams around the country; Playa removes some of the guess work by taking a look at the Ranch Hotel in Polokwane.

And talking about the World Cup: Local kwaito group, Amaroca, has been stirring up national pride with their 2010 song. Playa chats to the group about the inspiration behind the track.

Finally, Rudolf Bester has almost finished his first season in the PSL. Playa talks to the Namibian striker about his career so far and playing football in South Africa.
