

PRESS RELEASE

WWE

WrestleMania 24

TX: Sunday 27 April at 2pm

The stage is set for some mouth watering action. With a sensational tagline "*The Biggest WrestleMania Under the Sun*", WEE's Wrestlemania XXIV promises to pull out all the stops to top all previous records set in World Sports Entertainment.

RAW's Randy Orton, John Cena and Triple H are set to settle their differences on the night with the WWE Championship on the line in a Triple Threat match. As past members of the slick Evolution crew, Orton and Triple H have a score to settle.

While Orton possesses the potential to be one of the greats, his vanity - since becoming the youngest World Heavyweight Champion in WWE history - has been the reason for his collapsing alliances. Crowd favourite Cena has had to fight a lone battle to represent the people's honour and is caught in the middle. He might have to watch his back for a possible reunion between the former Evolution members.

Meanwhile, Smackdown's Rated R Superstar Edge puts his World Heavyweight Championship belt on the line when he defends against The Undertaker aka 'The Phenom'. Undertaker, with a landmark 15-0 Wrestlemania record has the edge (excuse the pun), but the Rated R superstar could hurt the legend with his signature and career-threatening move, The Spear.

Multiple boxing champion Floyd Mayweather crossed the meanest and largest in the business, The Big Show, when he came to friend Rey Mysterio's rescue, and thus set up a fantastic sideshow for Wrestlemania XXIV.

His actions, no matter how well-meant, left The Big Show a disgruntled man. Now the flamboyant Floyd will have to trade his boxing gloves for the Sport Entertainment battle arena against the 7 foot giant in a No Disqualification match.

While Floyd's quick footwork stands him good stead, a firm Chokeslam by The Big Show could see the boxing champion crash miserably.

Don't miss all the bone-breaking action, on Sunday, 27 April, at 2pm on e.tv. Be Free.
