

PRESS RELEASE

e Press Release: 3rd Degree - Shoot to Kill: Casualties of War

TX: Tuesday 9 February at 9.30PM

The police have declared war on crime. But as the battle rages, civilians are paying a dreadful price.

The national police chief has said the police should not die with their guns in their pockets but instead, 'shoot to kill at criminals'. His views have been endorsed by the president of the country.

But does this gung-ho attitude help – or harm – the very people it's meant to protect?

Is fighting fire with fire effective, if the public is forced to dodge bullets aimed at criminals? Are police sufficiently trained to distinguish friend from foe?

3rd Degree investigates the senseless deaths of innocent teenagers, who died in a hail of bullets.
